TEXAS NEWS ITEMS.

The charter of the Christoforo Colembo Benevolent association of Houston, was filed in Austin the other day. No capital stock. Purpose, benevolent.

At Norfolk, Rusk county, near Overton, Dr. Blackwell's residence and all his household goods were burned a few nights ago. Origin of the fire unknown. Insurance \$700.

The Western Union Telegraph company recently paid the comptroller at Austin \$1919.53 tax on earnings derived from messages handled during the quarter ended September 30.

R. R. Anderson, doing a general merchandles business at William Penn, Washington county, filed a deed of trust recently. Liabilities about \$10,-600. No schedule of assets filed.

Ed. J. Mays, dealer in groceries in Winnsboro, Wood county, made a deed of trust recently to C. H. Morris, trustee, preferring several creditors. Liabilities about \$2,500; masets \$1,800.

The residence and furniture of T. Galloway, in Naples, Morris county, was consumed by fire the other day. The fire is supposed to have originated from a defective fine. Loss about \$2,-200. Insurance \$500.

John Cole, a negro, was arrested at Marshall a few days ago charged with stealing a well-known horse named Roquemore, from E. R. Cocke, The horse was stolen from a pasture several miles from town some time ago. The horse was found in the western part of the county. Cole now languishes in jail.

E. F. Baster, banker in Navasota, Grimes county, made a general assignment several mornings ago, with no preferred creditors. Assets of all sinds over \$100,000. Liabilities about \$50;-000, all of which is to depositors, except \$5,000. The assignee thinks the bank will pay out in full when the aasets are realized on.

The waterworks standpipe in Plane, Collin county, was completed the other day. The city fire department has recently received 1000 feet of first-class new hose, and a new wooden tower is being erected in the rear of the cil hall for the new city \$50-pound firealarm bell. The people of Plano will not fear fire any longer.

A strange accident occurred near Corsicana a few days ago by which the 12-months old child of Mr. Ben. Herrybill lost its life. The child was crawling on the floor of the gallery in the rear of the house and fell from the gallery, head foremost into a swill bucket. full of slope and was drowned a fore any one knew of the accident.

More county convicts were sent out from Sherman the other day to the works. As rapidly as possible the county convicts are being put into raspective gangs and the class of work done by them on the roadsides is pronounced to be first-class in every reless expense than where men are em-

Heved of a gold watch, \$10 in money, id his cheek, No. 888, for \$124, by some unknown party who entered his room several nights ago. Mr. Goldsmith will liberally reward for any clew that will lead to the return of any of these, particularly the check, and he has taken necessary steps to prowent payment of the latter.

Oil was struck in two more wells the other night at Corsicana, both of which give indications of good flow. One is on the Whiteselle lease. The sand in both wells is coarse and when the full depth has been reached in the sand it is believed that a flow will be as good as in any well that has been sunk. If the Milla' well proves a success, it being the farthest south of any of the wells, it will open up a large territory mouth of the field now developed.

The Eaty yards at Ullisboro have been blocked the entire length of over two miles, and the double treck from Hillsboro to the south yards has also been blocked with freight cars waiting for engines to hand them.

The City Roller mills of Bowle, Montague county, were destroyed by fire a few nights ago. The fire was first discovered in the roof of the iniliting and nothing le-known as to the came. The plant was the property of the City Roller cell company and valued at There was about \$5,000 in-BHTMADCH.

The Industrial World was chartered at Austin the other day. Principal offlee at San Antonio; other places of business, New York, City of Mexico, 86. Louis, Houston, Fort Worth Capfini stock \$20,000. Purpose to do a general printing and publishing and atationery business.

McGregor Sisters, milliners, doing a small millinery business in the corner of L. Pink & Co.'s store, filed a deed of trust, recently in which R. Levison was named as trusted to \$632. They were In business in Brusham, Washington

ecimiy. The case of Domingo Cresantes, charged with asmutting his 9-year-old silve fallacy is only scotched not court the other day. The jury returned at Pekin and not at Berlin. The new burned. Business men may as well at Corpus Christi. Nucces county, a vertice of guilty and assessed the on the point of single for the p punlabment at twenty-five years in the on the occupation of Kinz enitentiary.

TELLER IN WASHINGTON.

Washington, D. C., Nov. 25. Senator Teller has arrived in Washington in good health and saddle, and ready to position his senatorial daties.

When asked to give his opinion as to the probability of legislation affecting America and Hummary, provisionally at the currency during the approaching session of Congress, Senutor Teller said; "I do not believe there will be ter technic manifested by the German said; "I do not believe there will be and muti-therman elements. The memany legislation looking to the substituers of the Left party protested up tion of bank notes for greenbacks and treasury notes, which appears to be form, so-called, advocated by the supporters of the gold sanulard. I think it very doubtful whether the advocates resident of that body. Dr. Abraha- of the change can agree upon the demovies was once more compalled to mile of such legislation and bankers will naturally besitate to increase the The departure of President Abrahatime of greenbacks and treasury notes and especially in view of the fact that the redemption of bank notes must, to entisfy the demands of the currency reformers, be in gold.

Senator Teller said it was quite cermin that the President would make some recommendation on the currency problem to Congress, but he was of the opinion that the suggestion would be in general terms, as in his mangarat tressage, and that the President would leave the details to Congreso.

The senator expressed doubt as to whether the administration would take my step looking to the encouragement of the Culsans in their war for inde-

"I (bink," be said, "that Congress can write the Culain question by recognizing the belligerent rights of the Cabana, and that should have done four since. I believe the Home will pass the resolution sent it during the special session, if that measure is brought before it, but it is quite doubtful whether it will be allowed to consider it at all."

FARM AND STOCK ITEMA-

S. C. Gozz, of Weatherford ordered the other day from the Wentherford Board of this city have evidently not been fully informed about all the gam- way, twenty-three cattle cars for shipway, twenty-three cattle cars for shipping catle to Kansas.

It is reportd that there is not a single section of land in either Hale, Childrens, Collingsworth counties that has not been filed on. In one day's ride recently, fifty-six wagen loads of home seekers, looking out locations, were seen, and nearly or quite all of these people were proposing engaging in the raising of stock.

In Bell county more wheat is being planted by the farmers than for many years before. Five cent cotton has discouraged the farmers, and they seem determined to raisie something else. If the coming season should prove to be a good one for wheat and other smallgrain, enough will be raised in Hell county to supply its wants with possibly some to spare.

Numbers of cattle have been shipped to Van Horn, El Paso County, during the past few days. Wm. Bondies, of Forney, Kaufman county, has shipped six cars of stock cattle to his ranch near Van Horn. R. B. Bearden just received two cars of stock cattle from Palo Pinto county for his ranch. Two more lots of attle have also been receisved by other stockmen.

Near Kopperl, Bosque county, Capt. J. C. Frazier has some land which Johnson grass has talken hold of, and he has been experimenting on the post. Having heard that thorough cultivation would kill it, he determined to try

R. He planted five acres in cotton and hired a man to plow it as often as he desired, which was very often. He has gathered six bales cotton, not including the toll, from the five acres, and the seed from the six bales paid tioente. for the cultivation.

The freight traffic is very heavy in Fort Worth, the Texas and Pacific and Missouri, Kansas and Texas joint yards, it is reported, from an authoritnaive source, is handling about eighty-five trains per day, averaging about seventeen cars to the train. At times the yards are crowded to their utmost capacity and the rush for freight becomes almost a blockade. Ten switch engines are being used at the yards during the day and an equal number at night.

A sale has just been closed in Uvalde county of the "Moore" ranch, comprising 15,000 acres of land, with valuable and costly improvements, by the Western Union Beef company, to Mesars. W. S. Brookshire, Fred A. Groves and M. R. Kennedy. The price paid for the property was \$1.60 per nere. These are the parties who recently bought from this same company the "Moore" stock of cattle of 1500 head at \$16. These cattle are said to be one of the best graded herds of cattle in west Texas.

The wheat in Navarro county is look-'tug well and a large acrenge was planted than ever before. With continued favorable conditions the yield next harvest will just about supply the local demand. There is now a movement on foot to build a fifty-barrel mill and for the \$5,000 needed to build it about \$3,000 has been subscribed. A committee has the matter of location in hand and will meet in a short time to determine where the mill shall be. The location that is most liberal in the way of a bonus will secure the mill.

The Armarillo county is full of eattie and buyers as well. Young steer calves are most sought after by buyers for shipment to Kansas and Southern Missouri. The feed in the panhandle is excellent, but great damage has been done by prairie fires. A large fire caused great damage on the X. I. T. ranch, a large property owned by the capitol synidicate. The corporation holds 3,000,000 acres of land in the northwestern part of the panhandle country, stocked with 75,000 head of cattle. During the recent fires a larger part of the pasturage on their Spring Lake division was destroyed. This loss at the time of year when there is such a movement of pasturage cattle toward that country, is a severe one.

We have often said that it is easier to keep an animal in good condition the year round than to permit it to run down and feed up again. It is cheaper in actual cost and there is also a saving in time. The same principle ap-plies to land. It costs less in the end to preserve fertility than to restore it. We don't believe the farmers of Virginia, the Carolinas and Georgia will dispute the proposition, for they have "been there, are there now and will be there for all time, as their fertilizer bills plainty show. A piece of land properly farmed should improve in fertility, and its last years' crop be better than any which preceded it. our Texas farmers believe they have land that cannot be exhausted, but time will tell the truth about it. We know some black waxy that was exceedingdly rich at one time, that has been abandoned because it will not pay to cultivate it. Better be warned in time.-Texas Farm and Ranch.

The butchers of Abilene, Taylor county, owing to the high price of cuttie, have decided to take advantage of the profits arising from feeding. They have purchased a number of large waildeveloped steers and are falining them for use.

Extra heavy shipments of cattle have been made from Jefferson county during the past few weeks. Cooper & Kellum alone have purchased fourteen head, averaging \$70 per head. Four-teen cars were shipped the other day from Hesomont, some of which will go

1 Aerfest Talking Machine. The talking machine in its perfected form is becoming a familiar object in homes. It is no longer merely a relentific toy. This results from great improvements. The records are flawless and the reproduction of sound ab-solutely faithful to the original. More-over, the talking machine has been so reduced in cost as to make it easy for every one to buy. One can learn all about the Taiking Machine in a few minutes and then is master of an instrument capable of affording him endless pleasure. Fascinating in itself because of the mysteries of natural science which it suggests, it will afford more delight to lovers of music than any one or any dozen musical instrumonts. No skilled performer

quired to awaken the spirit of melody

het dwells within it.

Favorite songs as sung by famous singers, popular selections played by renowned bands, or instrumental soluists, recitations by skilled elecutionists, stories or imitations by clever comedians, are always available to afford de It also affords other delights than that of reproducing records. You can collect through the Talking Machine sentences spoken by your friends, songs song by your companions, the little sayings of your children, schoes of dear voices that have a mel-ody to your cars all their own, and preserve them indefinitely, to be listened to over and over again in years to come, when they will be to you price-less souvenirs. Write for catalogue W, to Spear & Co., Indianapolls, Ind.
